Biography:

Aged just 31, Armin Van Buuren has been named number one in the prestigious DJ Top 100 poll voted for by over 350,000 people across the world, and an indication of his prolific output over the 10 years he's been DJing and producing. Being the official World's Best DJ is just one of his many achievements, but the driving force behind his success is an overriding passion for dance music.

Even a basic list of recent successes reads like a lifetime of work: 'Best Album' for artist album 'Shivers' at both the Dutch Release Dance Awards and the prestigious Edison Awards; 'Best Compilation' for 'A State Of Trance', and 'Best Mix Radio Dutch Show' at the Miami Winter Music Conference 2006 for radio show 'A State Of Trance' now broadcasting on a massive 40 FM stations as well as satellite and internet radio, with over 6 million listeners a week; a 5th year residency in Ibiza at Amnesia; sell-out shows for Armin Only (12,500 people saw the nine-and-a-half hour Rotterdam live set and show and a world tour is planned); over 50,000 downloads every week from podcasting high end chart-bothering positions all over the world for singles, albums and compilations, with single 'Rush Hour' used as the theme tune to the UEFA European Youth Championship; a second

Your current artist image

This is your artist image as currently displayed on your artist profile page.

Changing your artist image

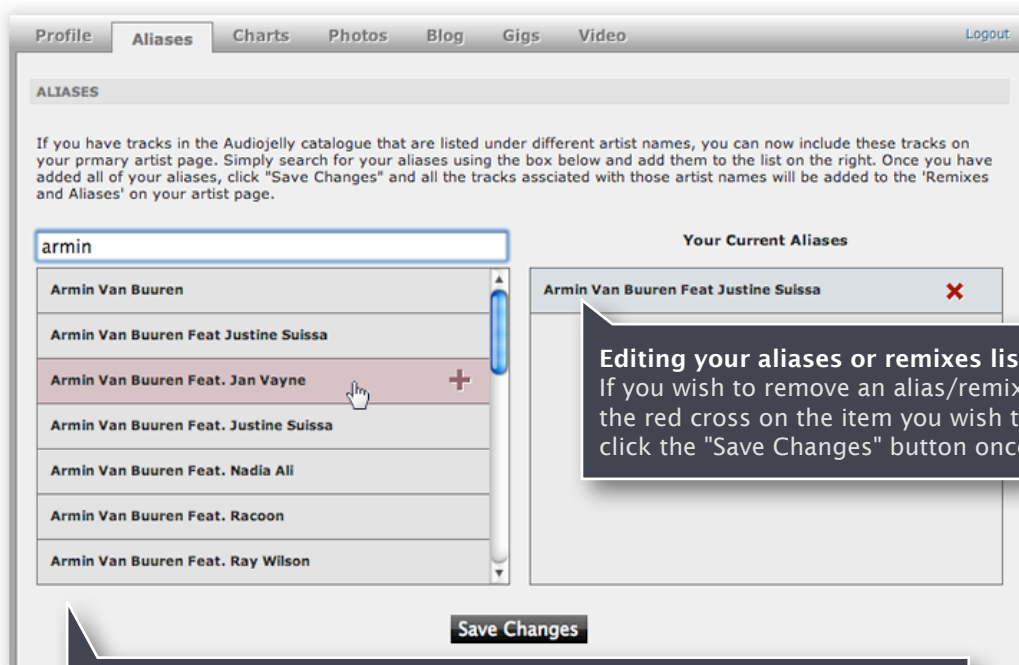

If you wish to upload a new image to replace your current one, simply click on the upload button ("Browse" on a PC, or "Choose File" on a Mac) and select the image on your computer that you wish to use. Once selected, click the "Continue" button and your image will be automatically uploaded and resized.

Deleting your artist image

Removing your artist image will revert to an Audiojelly default image. Check the "Delete Image" box and click "Continue"

ALIASES AND REMIXES

If you have tracks listed on Audiojelly that are attributed to other artist names, you can now choose to display them alongside those belonging to your primary artist name. Similarly, individual remixes can be included too. By compiling these lists of extra tracks, your main artist page will give your music the maximum visibility and all in one place.

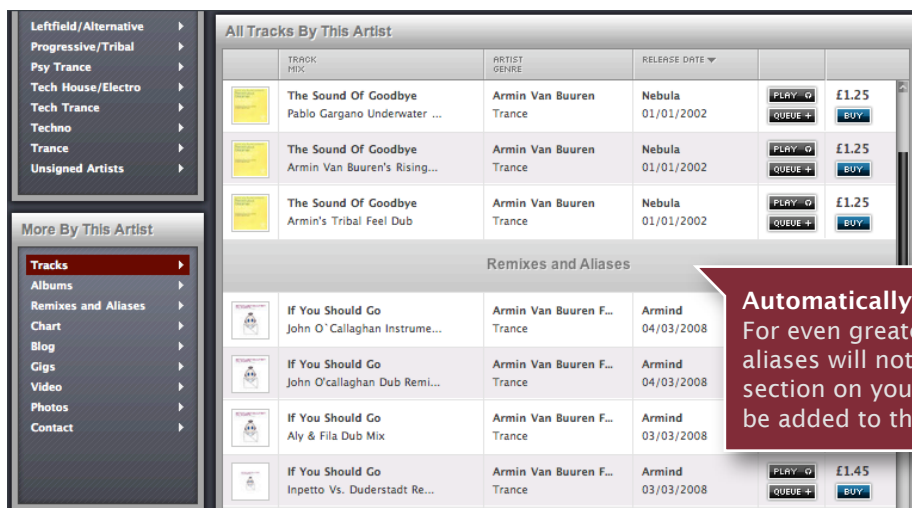

Searching for aliases

As you begin typing into the 'Search' box, results (based on artist name) will be displayed as a scrollable list. When you see the alias you wish to add, simply click on it and the item will be added to the list on the right. This process can be repeated as many times as necessary. Once you have compiled your list of items, click the "Save Changes" button. All tracks belonging to your aliases will then immediately appear in the "Tracks" and "Remixes and Aliases" sections of your artist page.

Searching for remixes

Administering your remixes is done in its own section, but works in exactly the same way as your aliases above. The exception being is that search results will be returned by track and mix names.

CHART

The Control Panel allows you to create your own DJ chart that can consist of any ten tracks from the Audiojelly catalogue. The simple drag and drop interface means you can easily order your selected tracks and change your chart whenever you wish. Audiojelly has a dedicated Charts section where your top ten will be listed automatically as well as in the 'Chart' section of your artist page.

EDIT CHART

You can create your very own top 10 chart to be listed on Audiojelly. You can search the entire AJ catalogue and add any tracks you like with just a few simple clicks.

Firstly, please give your chart a title and optional description (these will be displayed above your chart). You may also include an image to attach to your chart's page - this may either be the existing image currently used on your Audiojelly artist page, or a new image uploaded from your computer. If you are uploading a file, note that square images will achieve the best results.

Chart image

You can specify an image that you wish to be displayed when your chart is viewed through Audiojelly's main charts section. This can either be your default artist image or an image that you upload separately.

If you wish to upload a new image, select "Upload new/replacement image" and then "Browse" (PC) or "Choose File" (Mac) to select an image file from your computer.

Description

This optional field is displayed only when your chart is viewed through Audiojelly's main charts section and should be an extended description of the chart you are compiling.

EDIT CHART

To begin compiling your chart, type in a keyword into the search box below. Matching tracks will be displayed instantly. Simply click on a track to add it to your chart.

You may remove a track from the chart by clicking on the red cross or reorder the chart by using the drag bars to move a track up and down in the list. Once you are happy with your chart, click 'Save Chart' to publish to the site.
